REPORT – WORLD ENVIRONMENT DAY

World Environment Day is celebrated annually on June 5th to raise awareness about environmental issues and promote positive actions for the protection and preservation of the environment. This year, the student volunteers of the IUCEE-RVCE Student Chapter, 'SPARK' organized a **Quiz** event at RV College of Engineering to commemorate World Environment Day and emphasize the theme of 2023 **#BeatPlasticPollution**.

The main objectives of organizing the quiz on #BeatPlasticPollution were as follows:

- Raise awareness about the detrimental effects of plastic pollution on the environment.
- Educate participants about sustainable alternatives to single-use plastics.
- Encourage individuals to take responsibility for reducing plastic waste in their daily lives.
- Foster a sense of environmental consciousness and activism among the student community.

Event Details:

Date: June 5th, 2023

Venue: RV College of Engineering

Organizer: SPARK, The IUCEE-RVCE Student Chapter

Quiz Platform: Quiklrn App

Pre-event Preparation:

- The organizing team of SPARK meticulously planned and prepared for the quiz event.
- They designed engaging quiz questions related to plastic pollution, recycling, and sustainable practices.

- The social media team created promotional materials like posters to generate interest and attract participants.
- The team along with the support of Dean Academics, Dr Shanmukha Nagraj sir contacted the Quiklrn Head, an edutech app used by students of RVCE to use their platform for the quiz conduction.

Event Execution:

- On the day of the event, the participants gathered in the designated venue.
- The student volunteers were divided into groups to conduct the quiz in each classroom of different departments.
- Dean Academics addressed the gathering and gave instructions to all the volunteers.
- The quiz was conducted in an interactive and engaging format through the Quiklrn app in which the participants had a specified time limit of 5 mins to answer each question.
- The questions covered a wide range of topics related to plastic pollution, such as its environmental impacts, the importance of recycling, and viable alternatives to single-use plastics.
- The participants enthusiastically answered the questions, showcasing their knowledge and commitment to environmental conservation.
- Dr Shanmukha Nagraj sir, along with NSS officer Dr Lokeshwari mam conducted the quiz in few classrooms along with the student volunteers.

Report and Recognition:

- Around **1500+ students** participated across all the departments of the college.
- At the end of the quiz, plant saplings were awarded to the Top 3 winners in each classroom who demonstrated exceptional knowledge and enthusiasm.

As a continuation to the event, a sapling was planted under the name of IUCEE-RVCE Student Chapter, 'SPARK' by the **Principal, Dr K N Subramanya** sir on 6th June, 2023 to mark the event.

The World Environment Day celebration organized by IUCEE-RVCE Student Chapter, 'SPARK' in collaboration with Quiklrn at RV College of Engineering was a remarkable success. The classroom-based quiz on the theme of #BeatPlasticPollution engaged students in a fun and educational manner. By engaging the student community, the organizers successfully promoted environmental consciousness and encouraged individuals to take responsibility for reducing plastic waste. The event served as a reminder of the importance of collective action in preserving and protecting the environment for future generations.
